SUPERVISORS' MEETING ENLIVENED BY CHARGES

Democrats Enter Complaint Regarding Election Officers, and Supervisor Rowe Denounces Supporters of Candidate Foss.

The meeting of the Board of Supervisors this morning was one of the liveliest in the history of that body in this county. Political feeling ran high on both Democratic and Republican lines. W. L. Ashe, F. J. McDonald, and S. Bachrach, representing the former and M. T. Tait, H. C. Moore, and members of the board, H. W. Ross of Berkeley who is a candidate for the position now held by Bowe and Arthur Elston of Berkeley representing opposing interests in the Republic.

At one time Ashe rose to his six feet in height and with his right hand high in air threatened that if he were allowed to nominate a candidate he intended to do at the coming election he would block what he considered a game of putting Republians in the places of Democratic officials who had been appointed. He thought for no other purpose than to fail to appear at the polls for election on election day and then have their places filled by Republicans.

DEMOCRATS READY.

He declared further that the Democrats were ready for any game on election day, even that of shooting.

Ashe's ire was aroused by a charge by S. Bachrach, secretary of the Demo-

catic county central committee, to the effect that in a number of the voting precincts there was no representation given to the Democratic party among the election officers and that this was especially true in the third Supervisorial district, which is represented by Supervisor J. M. Kelley.

Kelley denied the impeachment and later Bachrach was compelled to admit that his charge so far as that district was concerned was unfounded.

Ashe in turn was inspired by the statement of John Gilder of Berkeley, who asserted that at the last election in which he had been a candidate, the ballot machine in his precinct did not result in with a vote not even the voice of himself or his son or sixty-nine plus people.

Gilder in turn was inspired by the charge made by Arthur Elston of Berkeley to the effect that J. T. Tait the ballot machine demonstrator in Berkeley had tampered with his machine to the detriment of Foss as a candidate for Supervisor in that town.

GEO. S. WHEATON, CLUBMAN AND MERCHANT, PASSES AWAY

Injury on Golf Links Causes Fatal Illness of Well Known Man

George S. Wheaton, a prominent business and clubman of this city and San Francisco, died at 6 o'clock last night, in the home of Mr. and Mrs. George H. Wheaton, his parents at 154 Lake street. Mr. Wheaton had been ill for eight weeks and was operated on in Folsom hospital about five weeks ago.

While playing golf on the links of the Claremont Country Club he ruptured a blood vessel, which caused internal hemorrhage. After the operation he appeared to improve and was thought to be on the road to recovery. He was subjected to a severe attack of bronchitis, however, and in his weakened condition, was not able to withstand it.

PROMINENT IN BUSINESS.

Mr. Wheaton was one of the most prominent figures in the wholesale provision market on the other side of the bay. He was a member of

the wholesale provision firm of Wheaton, Harrold & Company of 110 and 112 Davis street.

The deceased was 39 years of age and was born in San Fran in 1869, moving to this side of the bay when three years of age. He was married to Miss Ida Belle Palmer, daughter of the late Charles E. Palmer, in 1896. Their children were born to them: John, aged 16, George, Jr., aged 14, and Palmer, 1 year old.

Mr. Wheaton was a member of the Bohemian Club and of the Claremont Country Club and was, at the time of his death, a director of the San Francisco Board of Trade.

His widow, three children, parents and a sister, Miss Lillian F. Adams, survive him.

The funeral services will be held from the home of his parents, 154 Lake street at 2 p.m. tomorrow afternoon. The Rev. Alexander Allen, rector of St. Paul's Episcopal Church will officiate. The casket will be private.

CONDUCTOR PLEADS GUILTY AND IS FINED \$50 FOR KNOCKING DOWN FARES

John Warren Eckelberger who was recently arrested on suspicion of failing to ring up fares during forty days' employment as a conductor for the Oakland Traction Company and who confessed his guilt pleaded guilty in the police court this morning and was sentenced to pay a fine of \$50 or remain in jail twenty-five days. He paid the fine, having had \$192 in his possession at the time of his arrest.

Eckelberger freely admitted that he had withheld \$40 which should have been turned over to the company, declaring that he was badly in need of funds. He has made full restitution to the company and upon this showing he was allowed his freedom after paying the \$50 fine.

GOES GAILY ON WITH CRIMES

DARING BURGLARS NOT MOLESTED BY POLICE

Thousands of Dollars in Money, Jewelry and Silverware Taken But no Arrest Is Recorded.

Since the first of the present month a daylight burglar and all round thief has been operating in this city with a boldness and frequency which has complicated the police work. A least the police have been unable to stop his operations. This burglar, who is presumed to be accountable for the majority of the thefts committed of late seems to bear a charmed life for he has not been seen by any of his numerous victims, the instance which aids him in keeping out of the clutches of the officials. The history of the man's operations since October 1 is briefly as follows:

Oct. 1—Purse containing \$10 stolen from the home of H. R. Weldon 2228 Adeline street, looting stolen from the home of M. Sullivan, 837 Isabella street.

Oct. 2—Mrs. F. Lerche of 513 Seventeenth street, robbed of valuable diamond ring, diamond cluster, diamond and pearl necklace and emerald ring.

Oct. 6—Door of John Barasciano's room, 603 San Pablo avenue, forced open with Jimmy and three bottles of whiskey stolen.

Oct. 7—Rooms of Mrs. C. L. Brown, Arcade Hotel, robbed of a purse containing \$40 in gold, \$3 in silver and a check for \$50.

Oct. 7—Home of Mrs. A. Bracken 515 Thirty-first street, ransacked and two necklaces stolen. In this instance articles of value were left behind by the thief.

Oct. 9—Home of L. A. Foster 959 Park street ransacked and nothing but a mink fur valued at \$25 stolen.

Oct. 11—Home of George Relles, 102 San Pablo avenue entered and jewelry valued at \$120 stolen, sale of Torre & Vadelia, 1616 Seventeenth street broken into and \$16 stolen from the cash drawer behind the bar, home of E. MISS C. BENNETT the Emporium Miss B. TEVEN, 2127 Buchanan street.

MISS KATHERINE MULLEN, 2109 Greenwich street.

These all suffered more or less from shock and had their clothes torn being thrown about the inside of the wrecked car.

LOST HIS CONTROL

On number 619 of the Jackson and Washington streets the hill just comes over the hill at 8:10 a.m. at Jones and Washington streets when Gripman (Times) Simnett was unable to make the grip clutch hold and the car which was crowded with passengers broke away from the rope and plunged down the steep hill.

Practically the car ran piled down its brakcs but it had just been raining and the rails were slippery and little or no effect was produced on the fast-speeding car.

DASHED DOWN HILL

It crossed Taylor street like a shot and dashed down the second hill to Mason. Luckily there was no Powell street car rounding the curve and nothing to stop the impact of the vehicle loaded with passengers. Pedestrians along the street attracted by the sight of the number of women in the car stood righteously wondering what

happened.

An ambulance from the Central Emergency Hospital arrived on the scene in ten minutes and removed the officer together with J. De Morris leaving Mrs. Till to be cared for by Dr. Warren. Miss Francis Smith was taken by a companion to her home in a carriage which was passing and several of the others were treated at a nearby drug store.

RUSHED TO HOSPITAL

All the other passengers were similarly thrown in various directions and the cries attracted the attention of a great many people who immediately came to their assistance. Mrs. Till and Miss Francis were run over immediately to the office of Dr. H. S. Warren at 1012 Washington street.

PROPERTY OWNERS
OPPOSE FIRE LIMIT

Declare Berkeley Would Grow if Frame Houses Were Permitted; Others Demand Extension of Brick District.

BERKELEY, Oct. 19.—The Berkeley trustees at a conference yesterday considered appeals from certain large property owners, notably the Shattuck estate, for a revision of the fire limit laws permitting the location of wooden buildings on side streets, 100 feet from Shattuck avenue. The Shattuck estate, it is understood, desires to erect some wooden structures on Center street, and believes that the growth of the town would be promoted by cheap buildings, rather than none. Opposed to this move are property owners who have erected fine brick buildings in the neighborhood, from which it is proposed to remove the restrictions. The insurance men are also lined up against the plan and are arguing for an extension of the brick building law to cover the district about the corner of Bancroft way and Telegraph avenue. The matter will be considered in committee of the whole tomorrow night.

Miss Ethel McKenzie, daughter of George S. McKenzie of 1337 Pearl street, is home from Mills College on account of her health. Miss McKenzie is in her third year in college and is president of her class. Her condition will necessitate her remaining home three or four weeks.

Mr. and Mrs. Robert Donnell, of Rio Vista, Miss. Marie Jannell and Frank Donnell were the guests of Mrs. George McKenzie of Pearl street last week. Miss Marie will go to Mills College for a year and then plans to enter the University of California. Mr. Donnell has purchased a home in Berkeley.

Mrs. Mary Adams of Modesto, who has been visiting relatives and friends about the bay for the past ten days, returned home this afternoon.

DR. ROGERS DISCUSSES SCIENCE AND RELIGION

ALAMEDA, Oct. 19.—Dr. J. C. Rogers of the Interdenominational Religious Institute gave the first of a series of lectures on religion-scientific topics at the First Presbyterian Church last night. Dr. Rogers and his associates are combating the idea that science has accounted for the being of the human race and all other forms of lower life, without recognizing the fact that supreme God is the subject last night was "Science Concerning God." He will speak tonight and tomorrow night in the First Presbyterian Church, Wednesday night in the First Congregational Church and will then return to the First Presbyterian Church Tuesday and Friday evenings. His subject tonight will be "Science Concerning Jesus Christ."

ALAMEDA PEOPLE TO WED TONIGHT

Decorations in Autumn Colors, and the Couple Will Stand in Bower of Leaves.

ALAMEDA, Oct. 19.—This evening at the home of the bride's mother, Mrs. Martha Bird, a pretty wedding ceremony will be performed uniting Mrs. Ansto Florence Bird and Curt Hauthausen.

Only about forty of the closest of the family friends will be present, and Rev. John Coyle of this city will officiate. The bride will wear a gown of white silk with old lace that has been in the family for years and will carry a bridal bouquet of lilies of the valley.

The decorations will be in the autumn colors and the bride and bridegroom will stand in a bower of autumn leaves and ferns.

There will be no attendants but Miss Kathie Snow, a college chum of the bride at the University of California, who will play the wedding march.

Miss Kathie is the daughter of Mrs. Martha Bird, and a sister of Miss Ada Birn of the Alamedia school department and a graduate of the University of California.

Mr. Hauthausen is connected with the P. C. D. Dan Mercantile Agency of San Francisco.

After the ceremony a wedding supper will be served and the newly married couple will depart for a tour of the southern part of the State.

On their return they will reside at the home of the bride's mother until the spring, when they will build their own home.

The wedding will be a simple family affair, only the most intimate friends of both families being present.

DWIGHTS GARNER GOLDEN SHEAFS

Spectacular 12 Inning Game Results in Berkeley Team Defeating Crack Team.

BURKELEY, Oct. 19.—In 12 innings of spectacular baseball, the Dwight team returned victorious over the crack Golden Sheaf aggregation yesterday in an after lunch struggle at the Berkeley ball park. Score 1 to 6.

It was the dullest exhibition of baseball ever put off in the college town. Spectacular plays were pulled off continuously and the 200 or more fans present were worked up to the high water mark of enthusiasm.

The straightest delivery was meant a trifling for O'Neill, pitcher for the suburban team. The lad had nothing in steam and had an assortment of shorts and drops that placed him among the lastest pitchers in the State League. He held the heavy Sheaf all fours at his mercy. It was not until the third stanza that Sheaf but equalled with one of its batsmen only for a single, which Sparks duplicated in the fifth.

Sparks pitched a clever game, but three hits being scored off his delivery. The walloper that Dugay secured from him in the ninth was one of the few long hits that have been scored off him this season.

McFarland, first baseman for the Sheats, and Dugay, occupying the same position for the Dwight, both played a good game.

Sweeney, second for Dwight, Way, Tarr, short and Farrar, third, for the Sheats, left nothing to chance between them in their playing. "Wink" showed that he is good in a pinch, and this other lad no lack working knowledge of the game.

CHINESE RUNS "BLIND TIGER" IN BERKELEY

BURKELEY, Oct. 19.—The police raided a Chinese restaurant at 2150 Telegraph way yesterday and found a stock of liquors sufficient to equip a saloon found in cupboards and the basement.

The restaurant has been under suspicion since some time and the raiding of the policemen was timed for noon when they found two customers being served with wine.

San Gee, the proprietor, was placed under arrest on a charge of violating the prohibition ordinance and released under a \$250 cash bond.

The

The Boom in Oakland Building.

Last week the building permits issued by the Oakland Board of Public Works aggregated something over \$157,000. The building contracts in Berkeley, Alameda, Piedmont and Fruitvale, all of which are parts of Greater Oakland, aggregated fully as much more. Here we have building operations for a single week, in a territory smaller in area than Los Angeles, approximating three-quarters of a million. What gives special interest to this phenomenal building activity is the fact that no single structure is estimated to cost as much as \$50,000, and that the new houses are so generally distributed over the urban district of which Oakland is the business, travel and amusement center. Oakland is building up and increasing in population faster than any city in the country. It presents the most attractive field for real estate investment to be found between the two oceans. It is also the most delightful place to dwell in. When we get the Bankers' and the Claremont hotels completed, tourists will find this an ideal spot to make a stay in. The depression in other places is bringing people and money to Oakland.

Prognostications as to the Presidential Vote.

There has not been real cause for apprehension as to the election of the Republican candidate for President; but there have been unfavorable prognostications, and fears on the part of some Republicans that there might be a doubt. Of course it was to be expected that the opposition would claim everything and make an elaborate showing to prove its claims. This is phenomena of all national campaigns, and should not have received serious attention. For, as a matter of fact, there has not been a campaign in many years where the result was more clearly foreshadowed. Yet there have been doubting Thomases who have seriously perturbed the weak of heart and depressed those of little faith.

Perhaps some of these were prophets of evil without intending to be. They may have been in the attitude of the unaccustomed traveler along the mountain road, who, looking down the sheer precipice, shivers as he thinks of the terrible results that will ensue if he gets off the grade. He is perfectly safe and there is no danger as long as he goes steadily ahead; but he can not help counting the consequences if by any sort of improbable happening or accident he should get off the safe and open way.

The political way in this campaign is plain; so plain that a vast majority must see it; yet some Republicans appear to have had a fear that the inconceivable thing may happen and result in the defeat of their candidate. They have had fears that a majority of voters will perversely go over the grade.

We say they have had fears, for pessimism has now everywhere given way to the most cheerful optimism. The persons and newspapers whose prophecies were so disquieting have already become reassured. Every day adds to the certainty. There is now no well-informed person, whatever his predilections, but understands that Taft is going to be elected by one of the biggest popular majorities ever rolled up.

Signs have now been so confirmed as to warrant forecasts that may be confidently accepted. The New York World, a Bryan paper, is out with the first one. That paper divides the States in three classes—those that are sure for Taft, those sure for Bryan and those doubtful. The number of States that each is sure of is put down as twenty, but while the States are even in numbers, the delegates they send to the electoral college are not, Taft's twenty sending 205 delegates, while Bryan's but 178. The six doubtful States have 100 votes, so that were this forecast entirely reliable, Bryan, though terribly outclassed, would still have a desperate chance. But the doubtful list is made to include New York, Ohio and Indiana, which together have seventy-seven votes. Very few well-posted persons will believe that all three of these States are doubtful, and a very great many will not have it any other way than that they are all sure for Taft. So that this prognostication as a whole is greatly in favor of the Republican nominee.

"Raymond," the political correspondent of the Republican Chicago Tribune, whose letters have at times been so unbiased as to "lean the other way" and stagger even steadfast Republicans, explains that earlier in the campaign he framed it up that eighteen States, with 214 electoral votes, were for Taft, and sixteen States, with 142 electoral votes, for Bryan, leaving fifteen States, with 142 votes, in the uncertain column. He placed in the doubtful column not only New York and Indiana, but Kansas, West Virginia and Rhode Island as well. In a resurvey of these figures this prognosticator now thinks that New York will surely go for Taft, and is inclined to transfer to the Republican column the States of Delaware, Kansas, Indiana, Rhode Island, Utah and West Virginia as well. These would make his latest prognostication as follows: Taft, 256; Bryan, 158; doubtful, 69.

Another newspaper forecast gives Taft the votes of twenty-five States, aggregating 285 electoral votes; Bryan, sixteen States, aggregating 164 votes; doubtful, five States, aggregating 34 votes.

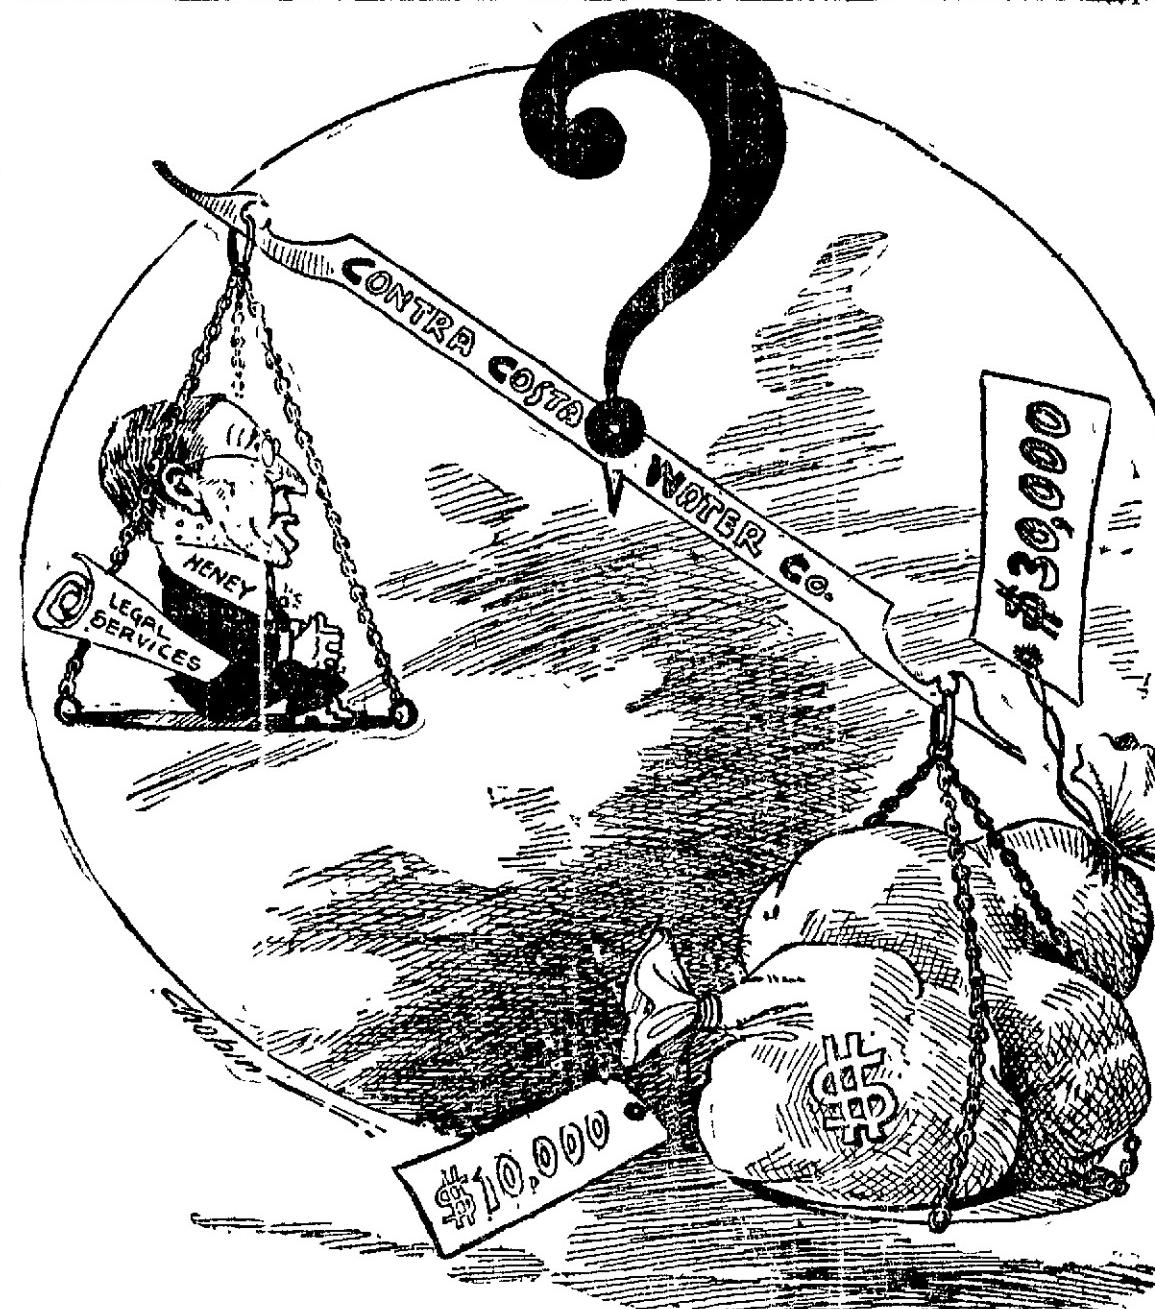

There is every reason to believe that the forecast which is the most favorable to Taft is still short of the vote he will receive in the electoral college.

George W. Peckham, Democratic candidate for Congress in this district, wants to debate, with other candidates, the "grape issue." He seeks to put the woe of California grape growers on President Roosevelt and the Republican policy of taxation. Mr. Peckham once was an esteemed editor of a newspaper; but he was always a "great hand to argy."

A protective union of ministers of the gospel is advocated by a Boston member of the cloth. Considering the disparity between the pay of hodcarriers and preachers, it is not a violent idea that the latter should seek to improve their condition through the labor union method.

Weighed and Found Wanting

--From San Francisco Examiner, October 19, 1908.

The President "Honestly and Good Naturedly" Refused.

An interesting disclosure is contained in a report by Kate M. Gordon of New Orleans to the Woman Suffrage Convention at Buffalo last Saturday. Mrs. Gordon appears to have headed a delegation which during the summer called upon the President to inquire if a petition containing 1,000,000 signatures would induce him to include in his message a recommendation in favor of woman suffrage. The report is to the effect that the President "honestly and good naturally" said he would not.

The interest in this incident lies chiefly in the characteristic disclosed on the part of the President in a matter that has disconcerted public men for many years, and that at this very time has the British government up a tree. The custom has been for high public functionaries to evade the demands of woman suffragists. They generally proceed on the idea that the best and easiest disposition of their demands is to jolly them along and avoid their displeasure at the same time that they deny in effect their demands.

The English statesmen pursued that policy, and they are now having more trouble than they ever thought existed, while some of the leading members of Parliament have suffered defeat on this issue alone. The suffragettes have been able to get themselves before the public as having been wickedly deceived, and thus their cause has taken on an impetus that makes it a vexatious issue, and one which all the succeeding governments will have to deal with. It might have been that the English suffrage movement would have caused a mighty ruction in any event, but that it should have been insincerely treated by the cabinet has undoubtedly aggravated it.

President Roosevelt again shows his straightforwardness by making a quick and good-natured decision in the corresponding issue in this country. He is undoubtedly opposed to the extension of the elective franchise to women. And in making known that predilection he is able to leave the impression that his attitude is the result of honest belief and feeling, rather than narrow prejudice or the projection of an old order of things into the up-to-date present and progressive future. He "honestly and good-naturedly" takes his stand and wins the respect of those who are disappointed in his rejection of their plea.

We have all heard of characters with such winning ways as to confer greater pleasure through their affable manner of denying requests than others of sombre manner were able to realize by granting favors sought. That may not be exactly the way with the President, but it is suggested through his ability to refuse such a request from a national body of women and still hold their esteem. The public man who has been in a similar position will appreciate this idea more acutely, perhaps, than the general run of folks.

S.S.S. BEST TREATMENT FOR CATARRH
The entire inner portion of our bodies is covered with a soft, delicate lining called mucous membrane; this is kept in healthy condition by the nourishment and vital vigor it receives from the blood. So long as the circulation remains pure this membrane becomes infected with catarrhal impurities and poisons the body becomes irritated and diseased, and the unpleasant and serious symptoms of Catarrh commence. There is a tight, stuffy feeling in the nose, watery eyes, buzzing noise, breathing, etc. The disease can be reached by external treatment, though such measures afford temporary relief in some instances. S. S. S. cures Catarrh by cleansing the blood of all impurities and poisons. Then as rich pure blood circulates throughout the body, the inflamed, irritated membranes are relieved and every symptom disappears. Catarrh, being a disease in which the entire blood circulation is affected, can only be cured by a remedy that goes to the very bottom and removes every particle of the impurity from the blood, and this is just what S. S. S. does. Book on Catarrh and any medical advice free to all who write.

SOCIETY SURPRISED

The most interesting announcement arrived in a cablegram from Honolulu which told of the engagement of Paymaster Rirkworth Nicholson of the United States navy and Miss May Antnette Lutther of New York.

The young officer met his fiancee in the Orient where she was travelling with her aunt. At that time he was stationed on the cruiser North Dakota.

At the time of the fleet festivities in San Francisco Miss Lutther and her aunt were visitors in that city and upon the departure of the fleet left for New York home.

Paymaster Nicholson is the son of Mrs. J. H. Nicholson of 1221 Linden street and a brother of Mrs. Victor Metcalfe wife of the Secretary of the Navy. It is thought by the Nicholson family that the young officer is now on his homeward journey and that the wedding will be an event of November.

Miss Lutther is a stranger here but is said to be a very attractive and accomplished young lady. The engagement is another surprise to the members of the smart set who are wondering from which direction the next announcement will come.

CLUB MEETING.

Has Strength Restored By

Vinol

Mrs. Michael Bloom of Lewistown, Pa., who is 80 years of age, says "For so long time I have been so feeble that I have had to be wheeled around in an invalid's chair. I had no strength and took cold at the slightest provocation, which invariably settled on my lungs, and a cough would result. My son learned of the cod liver preparation called Vinol, and I procured a bottle for me. It built up my strength rapidly, and after taking three bottles I am able to do most of my work, and I can walk a quarter of a mile easily. Every aged or weak person who requires strength should try Vinol. I am delighted with what it has done for me."

As a body builder and strength creator for old people, delicate children, weak, run-down persons, and after sickness, Vinol is unexcelled. If it fails to give satisfaction we will return your money.

The program will be as follows:

TAFT SPENDS DAY AT THE WHITE HOUSE

Republican Candidate Has Long Visit and Conference With the President.

WASHINGTON Oct. 19.—"I expect to be elected to the Presidency," said Judge Taft, standing in the East room of the White House last night, facing thirty or forty newspaper men who had gathered to meet him after he had spent the day as President Roosevelt's guest. The answer was in response to a question after a brief discussion of Taft's recent tour through the Southern States of which he had spoken as a pleasing experience. With reference to that tour he would only say he thought it would open the way for improved Republican conditions in future campaigns. Judge Taft expressed a delicacy in revealing the issues which he and the President had discussed and when pressed for a statement as to the President's view of the situation he would only say that the President is not a pacifist.

"Nor am I," he added.

BOTH WERE PLEASED.

While not especially arranged for that purpose, the Presidential candidate found in his stop here, a convenient opportunity for consultation with the President, his especial champion and chief advisor and that both were pleased with the arrangement and made the most of it. They spent the entire time in the company of each other and for the most part with others excluded.

While but little information concerning the tenor of their conversation was given out, it is known that they discussed, although in a purely informal way, most of the subjects that have come to the front since the campaign opened, and the President offered suggestions on minor points, which Mr. Taft will adopt.

SPECIAL ATTENTION

It was the evident intention of the President to take advantage of the occasion to emphasize to the country his personal and public interest in Taft and he utilized all time at his disposal to this end. Not only was he the candidate invited to breakfast luncheon and dinner but he was taken into the White House as if it were his own home and in addition, Roosevelt remained away from his church in order to accompany Taft to his church. He also took a stroll with him after the services and then crowned the day by asking in a number of political and personal friends to meet the candidate and go over the situation.

POCKETS PICKED BY ARRESTED PICKPOCKETS

SAN FRANCISCO Oct. 19.—It cost an unknown \$46 in witness of the arrests of pickpockets last night. It was all but impossible to close the pocketbooks while they were close to the prisoners while they were waiting for the patrol wagon. The victim was John Hill an employee of the Ocean Shore railroad and the theft of \$46 in gold and silver made it impossible to find it although the captives were closely searched.

SAFETY IN STANDARD OIL PLANT

RICHMOND Oct. 19.—Announcement was made yesterday that the Standard Oil Company has completed plans for the immediate expenditure of not less than \$2,000,000 in important additions to the already extensive plant at Richmond. Officials of the company who have just returned from the east brought back with them the authorization for the heavy outlay.

Work upon the improvements is to begin at once with the partial reconstruction of a large tract of marsh land which the company owns and is located between the plant and the Santa Fe station, adjoining the west end of McDonald Avenue. It was stated authoritatively that not less than ten units of refined machinery and accessories would be constructed.

These units will represent the development of a new process of oil refining which heretofore has not been used in any of the refineries of the Standard Oil Company.

HEART-TRIBUNE'S PAGE FOR WOMEN-HOME

Thinks Mothers Fail In Training of Boys

PHILADELPHIA.—Mothers were yesterday told not to make mollycoddles of their boys, but to turn them over to their fathers and let the head of the family lay down the law.

It was Dr. Robert Ellis Thompson, president of the Boys' Central High School, who gave this advice to members of the Mothers' Club, which held its first meeting of the season in the New Century Club, at 1207 Locust street.

"A woman has little control over a growing boy," said Dr. Thompson. "Her influence is so personal and reacts on the child, making him irritable and averse to discipline. A boy of 14 thinks he knows as much as his mother, whereas his father seems a superior being because

he is stronger and has more knowledge of the world."

Dr. Thompson opposed telling boys not to stay out late at night, and declared that it is the parents' duty to keep them off the streets until they are old enough to avoid temptation.

"A boy's life," he said, "is largely moulded by his home influence, and the teacher gets the reflex action of the parents' training or neglect to train their children."

"If mothers realized this they would take more pains to study their children, visit their schools and co-operate with the teacher in maintaining a high ethical and educational standard."

Mrs. George Wheeler presided at the meeting, and announced that a number of prominent educators will address the club during the winter.

Strange Old Widow, Who Kept Her History Secret, Dies

PHILADELPHIA.—Alone, as she had lived for years, asking aid or sympathy from no one, Mrs. F. H. Dare, 75 years old, and a widow, died early yesterday morning in her shabby little room at 921 North Watts street.

Her bent, nearly clad little figure was familiar enough to all the neighborhood, but even the families which shared the house with her knew almost nothing of her history, and the police and the coroner's office had to search her possessions to find who her relatives or friends might be.

The children of the narrow street knew her a little better, for she would sometimes admit them into the room where she conducted her whole household. She had a great knack at making delicate little cakes which her small guests fully appreciated. But even the children only knew her as a very gentle and soft-spoken old woman who was good to them.

The neighborhood judgment dealt kindly with her, in spite of her proud aloofness from its people and its affairs. She had seen better days and had been well bred. She read a great deal, and sometimes on sunny days would go out for a walk to the end of the street, but seldom beyond. At Christmas time her mail was heavy with packages and gay cards, but the postmarks were of distant parts, California and Quebec and Paris. Now and then she would have a visitor or two, some white-haired old man, as carefully gaited as herself.

All of which did not help the coroner's search for her friends, nor did the contents of her room. There was a little money, part of a trifling small annuity it would seem, and the papers which proved her ownership of a burial plot in a little New Jersey town. There are already buried her father, mother, her husband and her only son. There she will be buried, too, and the funeral service will not be a long one, nor over-crowded.

Reflections OF A BACHELOR GIRL

By Helen Rowland

The great domestic problem — "Where is my wandering boy tonight?"

A beautiful woman is born for love, a clever woman may achieve love, but it takes a little thing with a baby stare and no nose or scruples to speak of to have it thrust upon her by every man she meets.

Some men never realize what splendid fiction writers they might have been until they hear their own love-torments read aloud in court.

There are just two ways of achieving certain bachelorthood; by making love to no woman under heaven, and by making love to all women under heaven.

If it really became the fashion for women to do the proposing, wonder

TWIN SISTERS WIN HIGH COURT HONOR

WASHINGTON.—Twin sisters, Misses Ethel A. and Florence M. Colford, of this city, have been admitted to practice in the United States Supreme Court. They are the youngest women ever admitted to practice before that tribunal, and are pretty. Their ability got an endorsement from the department of justice.

Misses Colford were graduated a year ago from the Washington school of law with honors, and took a post-graduate course. They have been practicing law with their father, Lawrence Colford, who founded the Georgetown Academy here, were graduated at the head of their class and carried off prizes for An interesting feature of their story is that they were always together standing and tied for honors, and a strong bond of affection between them.

DIVORCED, PARTED FOR FIVE YEARS: TO REWED

PHILADELPHIA, Oct. 19.—After living apart for more than five years, Lawrence Joseph Barsuglia, of 2847 North Twelfth street, and Anna Barsuglia, of 2037 North Carlisle street, have decided to forget they were divorced and will marry again. A bill of sale for the wedding was taken out yesterday.

Mrs. Barsuglia, who is thirty-eight years old, since her divorce, July 6, 1903, has been a saleswoman in a downtown store. She obtained a complete separation from her husband, who is four years her senior, on the grounds of cruel and barbarous treatment.

Prince Reported Engaged to Two American Widows and One English Princess

MRS. S. C. CHAUNCEY,
Rich Widow Who May Wed Prince.

Practically at the same time have come the reports that Prince Miguel of Braganza was to marry two American widows and an English princess—one at a time.

The American widows are Mrs. Frank Avery of Chicago and Mrs. S. Chauncy, now a resident of Vienna. Just which member of the British royal family Braganza has his eye on has not come over the cable.

HE NEEDS THE MONEY.

Both the American widows are in the millionaire class, which gives them advantage over even a princess, for Braganza needs the money. Of course, if the prince marries one of the widows he will practically be forced to reside in France, since as a son of one of the reigning houses of Europe, the mar-

iage would be considered merely morganatic.

RESIDES IN EUROPE.

Mrs. Chauncy is well known in London, where she lived before she went to Vienna. She is the sister of Lady Newborough. Prince Miguel is the eldest son of Dom Miguel, the Pretender to the throne of Portugal. At least, the world, recognizing accomplished facts, reckons him Pretender. He would, no doubt, describe himself as de jure king, being descended in the male line from Joao VI, the last of the Braganzas proper to sit on the throne of Portugal. King Manuel is descended from Maria, the daughter of Pedro IV, the son of Joao, in whose favor that monarch abdicated when she was seven years old.

Say She Stole to Gather Her Troussseau

PHILADELPHIA.—Caught in the act, it is said, of stealing expensive lingerie in a Market street department store yesterday, Miss Becky Pippen, 17 years old, of South Fourth street, was arrested by Store Detective Company and locked up in the Eleventh and Winter streets station.

The girl is said to have told the police she stole the finery to add to a wedding trousseau she has been preparing. She will have a hearing today before Magistrate Gallagher.

FIGURES TO ORDER.

To prove this, she had four models, whose figures ranged from the impossibly thin to the preposterously fat, whom she pulled, patted and coaxed into the newest hipless corsets, until they presented the appearance of up-to-date corset "ads."

While she tussled and tugged, Miss White discoursed learnedly, but breathlessly.

"Length and lines make the good corset," she said. "No matter how much flesh you have, if it is properly distributed your figure will be as good as any other woman's." "Control your corset—don't let it control you."

LOTS OF ROPE.

"Raise your chest, and throw up your arms and shoulders; then place your corsets on low, attach the hose supports and you are ready to begin the lacing-up process."

A valuable painting has been given by one of the members, to be sold, the proceeds to go toward the building fund. A committee has been appointed to select a site for the erection of the home, and it is rumored that an option has been taken on a lot in Chevy Chase, one of Washington's most fashionable suburbs, which will cost \$2500.

Pelletier is the first to make a flight in a heavier-than-air machine. The picture here reproduced shows the brave young woman entering the machine preparatory to a flight.

Catches Rival Dining With Husband; Shoves Her Face Into Hot Soup

NEW YORK, Oct. 19.—"Hello!"

"What is it?"

"Is this The World?"

"Yes; what do you want?"

"I want to give you a story for tomorrow's paper. Say, it's a peach!

I'm Billy Hepner's sister-in-law. You know Hepner, the hair man? Yes,

the Marcel manufacturer, that's the one. Which sister-in-law am I? I'm the one by his third wife. But say,

leave my name out of it. Honest to goodness it was the best thing ever pulled off under the bright lights."

(Wildly hysterical laughter and business of whispering at the other end of the wire.)

MADE HER LAUGH TO TELL IT.

The writer has read the foregoing and declares the above a true copy of what happened when the telephone bell in The World office rang about 10:20 last week. A woman's voice, pitched in the highest key, and way off the key at that, took part in one end of the dialogue. When she paused it was to scream with merriment, in which she was joined by some person or persons in her immediate vicinity.

"Get ready now, here comes the story," she continued.

"Batter up!" shouted the reporter.

"Of course you newspaper men know all about the Hepner's domestic difficulties," began the voice. "You know that Billy served his wife with

papers in a suit for separation. The la fete-the-well. Excuse me a minute while I laugh a little. THEY WEREN'T MATCHED.

"The funny part of it was the date party in the size of the two women. Mrs. Hepner is about four feet six while her rival is about six feet four. It all took place in about thirty seconds, but events moved rapidly after that. Billy stood up and when I called him some hard names he never said a word. The newspaper man had lost his vocabulary and the blonde was sobbing on the shoulder of the other woman.

"Clerks, bellboys, house detectives and other employees rushed over to the table and the guests who were dining in the Palm room certainly got action for their money. Gaily but firmly we were led away and we didn't protest. We took a car upstairs and came to the place from which I am telephoning you. No, I don't know where Billy and his friends went. It's a safe bet that they hunted up a drug store, for that blonde needed liniment badly. Guess that's about all. If you don't believe it go find Billy or else call up the Hotel Astor. Much obliged. Good night."

"I've been here all night," said the manager of the Hotel Astor. "I'm sure I didn't see any such affair."

WIFE NO. 2 SUPPORTS CHILD OF FIRST WIFE

PHILADELPHIA.—Louis Goldberg of 1542 South Seventh street, who is under order to pay \$1 a week for his father's support, and \$3 for the support of his child by his first wife, has sought to have the amounts lowered. He said he didn't have a cent. His second wife, Mrs. Beekle Goldberg, he said, had to make the payments. Judge McMichael reduced the payments to 75 cents and \$2.50, respectively.

NORRISTOWN, Pa.—Because Peter W. Boyd became tired of pretty Julia Hughes, he is called upon to answer in Montgomery County Court for breach of promise, and it concluded for the full amount of damages asked for hurt feelings and that sort of thing will be obliged to pay her \$5000.

Action was brought by Walter M. Shaw on behalf of Miss Hughes, who is 24 years old. She came from Ireland six years ago and has worked at

the Philmont Country Club, in Moreland Township.

There she met Boyd, and she alleges that he soon gained her confidence and caused a friendly feeling to exist between us."

Lively discussions were carried on be-

Girl Guide Lost on Mountain, Rescues Party by Twisting Cow's Tail

SCRANTON, Pa.—From Starlight, a hamlet near this city, comes a "lost-in-the-woods" story that out-twisted anything in the season's crop thus far. The heroine of the adventure is Miss Elma Knight.

A few weeks ago Miss Knight led a party of friends through the woods to Stockport to attend prayer meeting. She had traveled the woodland path from childhood, and the party had the fullest confidence in its guide. Delayed to chat with friends at the close of the meeting, they did not begin their homeward journey until the moon had gone down.

Weary and footsore they started on their long tramp and everything went well until the Beaver dam was reached. Here the fair guide decided to lead the party over the mountain by a short cut, but in the darkness she selected the wrong path. After following the path several hundred yards she realized her mistake and informed the party that they were lost. In an attempt to return to the main path they wandered about in a circle, finally grouping on a fallen tree to rest.

The distance could be heard the faint tinkling of a cowbell. Bidding her companions follow her, Miss Knight picked her way in the direction whence the sound came and finally located the herd. She recognized them as belonging to William Stevens, who lives not far from her own home.

To the amazement of every one in the party she grabbed one of the animals by the tail and twisted it vigorously. "Catch on!" she shouted over her shoulder as the indignant cow dashed down the mountain.

Native Sons Pay Tribute to the Memory of Their Dead

JUDGE THOMAS J. LENNON / MRS. CAROLYN CREWE RASOR

SERVICES HELD IN THE UNITARIAN CHURCH

With Beautiful Music and Eloquent Eulogy the Departed Are Remembered.

Under the auspices of seven parlors of the Native Sons of the Golden West impressive memorial services were held yesterday afternoon in the First Unitarian Church of this city. The house of worship was filled with Native sons and their friends, who participated in the interesting ceremonies, which were opened by Beethoven's funeral march. Reverently the services for the departed members were conducted. The event marked the most solemn occasion in the history of the order. In respect for the honored dead of the Native Sons these memorial services are held every year.

W. H. J. Hynd, assistant district attorney, presided over the exercises and delivered the opening address. The eulogy was pronounced by Judge Thomas J. Lennon of San Rafael. Dolin, Claremont Parlor; George Little, Charles Clark, E. Tormey, H. Blint and C. O'Connor.

LUNCHEON AT PALACE.

The presentation will take place at 11:30 a.m. The ambassador will present the admirals, who in turn will present the captains and lieutenants. After the ceremony the admirals will proceed to the imperial palace for luncheon. The occasion is likely to be a notable one in a diplomatic as well as a social way, as it is understood that Rear Admiral Sperry is the bearer of a special message of greeting from President Roosevelt to the emperor.

A NOBLE FRIENDSHIP.

"The co-living of such men," he said, "is the crowning reward of loyalty to his own government. It is the inspiration of a noble and friendly feeling."

The ambassador referred briefly to the commencement of intercourse between America and Japan fifty-six years ago, when young Japan, seizing the opportunity presented, carried not only the young and vigorous, but with the strength born of a laudable personality, brought the conservative element of the country to a realization of the nation's larger destiny.

"WE CANNOT CLOSE OUR EYES TO THE FACT THAT GREAT NAMES AND NAMES ARE BEING ORGANIZED THROUGHOUT THE WORLD," HE SAID.

"And it follows, sometimes that thoughtful people are concerned less some cause, great or small, worthy or unworthy, shall bring some of these great forces into collision. However, since we are happily bound on our sides that preparation for war is the best guarantee of peace, let us be content with this assurance. And at the same time we should remember that it is possible always to cultivate this peaceful intention throughout the cultivation of that class of citizens which gives evidence of being honorable and sincere in purpose."

AN EXALTED LESSON.

"May I ask you to agree with me in my belief that this memorable visit will stand as an exalted lesson in the broad international school of the brotherhood of man where there exists and shall exist the respect for differing opinions and the possession of others, and above all, the freedom from pride, arrogance, suspicion and greed which most of the wars of the past may be traced."

CUTS HIS THROAT IN NIGHTMARE

(Special to the Tribune.)

SAN FRANCISCO, Oct. 19.—H. Horio, a Japanese, 49 years old, jumped from bed at 4:30 this morning, grabbed a razor from a nearby table, slashed his throat from ear to ear and then returned to his couch before his wife could raise a hand to stop him.

The astonished woman hastily sent for an ambulance; but when Stewart Thomas arrived at the house, 1532 Bush street, he found that the man was dead. His wife could give no reason as to why he should want to end his life and the only conclusion that can be arrived at is that he was possessed by a nightmare.

A communication was received from George Schuster of the Spring Valley Water Company offering to meet the Board of Supervisors Wednesday next, October 21, at 11 o'clock at Verona Field.

A communication was received from F. Tatum referring to the desire on the part of the board to purchase a piece of property near the county infirmary. The matter was referred to L. B. Ferguson.

2 BOYS AND MAN WOUNDED RESULT OF DAY'S HUNTING

LADE IS HIT WHILE OUT IN BOAT

ANOTHER INJURED BY EXPLODING SHOTGUN

One Man Receives Charge From Unknown Hunter Full in the Face and Will Likely Be Blinded.

FRED HOSFORD,
Who Was Shot While Duck Hunting.

ALAMEDA, Oct. 19.—A careless duck hunter shot Fred Hosford, 16-year-old son of Dr. W. J. Hosford, yesterday while the boy was in a skiff with a friend off Bay Farm Island. The hunter was on the island marsh and a duck flew between the hunter and the boys. Though the bird was flying low and the boys were in plain sight, the hunter fired his barrel, killing young Hosford full in the face and causing him to fall over, with leaden pellets.

The injured boy was taken home by his friend and Dr. Hosford spent several hours picking out the big quantity of shot which lodged in the leg. The boy was fortunately far enough away to escape the full force of the charges, or his legs would have been shattered beyond hope of saving. As it is he will have a painful wound for some time. Dr. Hosford is bending every effort to learn the identity of the hunter.

FALLS IN BOAT.

Young Hosford was with James Addison of 889 Walnut street, about the same age. The Hosford boy was watching the two boys as the duck, flying between them, rose to his feet. He was standing in plain view gazing at the shooting duck just skimming the water when the hunter suddenly fired, the boat being directly in range.

Dr. W. J. Hosford, father of the injured boy, said this morning that he believed that the hunter certainly saw his son and deliberately fired, regardless of consequences, though the hunter must have known that the charges would carry him to and beyond the craft. Young Hosford sank back helpless in the boat when shot and his friend rowed the boat to the Alameda shore, secured assistance at the landing and got the wounded boy to his home.

GUN EXPLODES.

HAYWARD, Oct. 19.—Leslie Taftsho of this place tried to shoot a quail through a board fence yesterday, with the result that his gun exploded and a piece of the flying metal inflicted a severe wound on the skull of his companion, Frank Mederos. The boys, who are not over 18 years old, were quail hunting in Cull Canyon, where the accident occurred. The gun was 12-bore, single-barrel of cheap make, and literally flew to pieces. The wounded boy was hurried in a buggy to Dr. Reynolds, who took eleven stitches in his scalp. Taftsho was not injured.

SHOT BY HUNTER.

HAYWARD, Oct. 19.—While hunting quail yesterday in Dry Creek canyon Daniel Wilson Ingram of 81 Portal street, San Francisco, was shot by another hunter, evidently by accident, and will probably lose the sight of both eyes. The man who fired the disastrous shot disappeared after carrying the wounded man to a ranch house near by, and has not been seen since. His name is not known by Ingram, but he is believed to be a Portuguese ranch hand in the vicinity of the accident.

SHOT IN THE FACE.

The shooting occurred about 12:30

CLAUDIANES BRYAN TO TRIAL ON NOV. 5

PETER WILL BE FIRST TO FACE HIS ACCUSERS

John and Peter Claudianes, the famous confessing Greeks, who are in custody for dynamiting the houses of James L. Gallagher, a former supervisor of San Francisco, appeared before Judge Ogden in the Superior Court this morning and had their cases continued until November 5, at the request of District Attorney Donhue. Peter's trial will begin at that date and John will have his trial set. Each will be tried separately.

Peter Claudianes was first in court. He was dressed in a neat blue suit and sat among other prisoners chewing gum and apparently enjoying himself. He was the center of attraction in the busy court room.

DONAHUE'S REQUEST.

Attorneys Cogan and Scott of San Francisco announced that they were ready to go on with the trial today, but, at the request of the district attorney, consented to its continuance. District Attorney Donhue desires to prosecute the Claudianes boys personally and is at present engaged in the process of obtaining the percentage of Republican loss over four years and the results of that poll were amazing. In no instance have the reports made shown the percentage of Republican loss in this State to be less than 25 per cent and in Erie county the losses to the Republicans ran as high as 40 per cent.

JUMPS FROM TRAIN.

RENO, Nev., Oct. 19.—Thomas Moore, aged 60 years, a prominent property owner of Sparks, leaped from a moving train last night when he attempted to jump from a fast moving train as it was passing through a station. He had been taking a long walk for his health and was looking for a quiet place. He had been walking along the tracks when he saw a train coming and he jumped onto the side of the train and was pulled along by the train, which was moving very rapidly. He was thrown from the train and fell to the ground, breaking his leg. He was taken to a hospital and is now recovering.

Fortunes of the World Are Founded on Oil

Joe Chanslor, now several times a millionaire, was, not so long ago, a clerk in Los Angeles. He borrowed some money for the purpose of operating in California oil; the result was that it made him one of the wealthiest men in the State. John A. Bunting, formerly a brakeman on the Southern Pacific, through the investment of \$170.00 in California oil land, became a millionaire.

We could tell you of innumerable others. Why? We believe that well No. 2 will sink four more wells and to install modern compressor plant. We believe that well No. 3 will produce at greater depth, produce a large and inextinguishable supply, as are the other wells on adjoining properties. We are offering a limited number of shares in this Company at 20 cents per share. Do you realize what that means? It means that in purchasing this stock you become interested in a company that can produce the oil. It is not a case of "THE MAYBE," they should, but "THEY ARE."

Let us again impress upon you these highly important facts: The property is a producer; is entirely surrounded by reliable producing properties; that there is sufficient acreage (forty acres) to justify the drilling of forty more wells, all of which would be in the very core of one of the richest oil-producing districts in the world. Remember that Kern County produces as much oil as any other three oil-producing counties in California. Shipping facilities could not be better, for the property adjoins the Southern Pacific tracks. The Company has valuable assets in improvements. Two wells, derrick, tanks, tool and pumping houses, etc.

Before accepting the fiscal agency of The Kern Associated Oil Co. we thoroughly investigated every detail pertaining to the Company and its property. We did not take snap judgment, we never do, consequently want to assure you that the stock of this Company at twenty cents per share is the most unparalleled opportunity for the investor that ever came under our observation.

We sincerely believe that the Kern Associated Oil Co. is destined to pay dividends as surely and as regularly as is the Associated Oil and other companies operating on adjoining properties and we see no reason why within twelve months the stock should not be quoted at many times its selling price.

You can invest any amount from twenty (20) dollars up to twenty thousand (20,000) dollars. We allow you five (5) per cent on cash subscription. You can purchase stock on the easy monthly plan if you so desire. Come to our office and see the photos of the property, reports on the property, samples of oil, etc. THE STOCK OF THE KERN ASSOCIATED OIL CO. IS THE BEST BUY ON THE MARKET TODAY.

SACRAMENTO, Oct. 19.—Sacramento and Stockton broke even in the double header played here yesterday. Stockton took the morning game by a score of 4 to 3 and the locals won the afternoon contest to the tune of 1 to 0. Both games were bitterly contested and well played.

Brown's wildness in the third inning was responsible for Sacramento's defeat in the morning game. Whalen was drivable, but three hits being received from him by the heavy hitting of the Stockton team. A single by Janney followed in the lone run batted by Nease in the first inning. Thus Sacramento had the only tally of the game.

After the first McKinnon held the Stockton team at bay until the eighth, when the Asturias' team got through two two-baggers and a single in three times up. Both games were attended by immense crowds. The score:
